

REST FOR THE WEARY

America's Grow-a-Row was the recipient of an Eagle Scout project constructed and completed by Bobby Negoescu, a member of the Bethlehem Township, N.J., Boy Scout Troop 191. Negoescu, left, proudly presented 24 park benches to Chip Paillex, founder and president of AGAR. These versatile benches also convert to picnic tables for the local nonprofit organization that provides free fresh produce to those in need across New Jersey. Negoescu managed the entire process of coming up with the idea, fundraising for the project, overseeing his Scout troop as they assembled the benches and the final delivery to the farm. For information on Grow-A-Row, call 908-331-2962 or visit americasgrowarow.org.
